EXAMINER'S COMMENTS

The following changes to the drawings have been approved by the examiner:
formal drawings are required. In order to avoid abandonment of the application,
applicant must make these above agreed upon drawing changes.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims of the present invention recite a method of receiving identification information and a transaction request from a user at an ATM; sending from the ATM to a first computer a marketing request including the identification information; sending from the ATM to a second computer a transaction request; selecting via the first computer a presentation to be made to the user; sending from the first computer to the ATM a message containing the presentation; determining a transaction response via the second computer and sending the response from the second computer to the ATM; presenting responsive to the presentation data an output at the ATM; carrying out the financial transaction.

The closest references are: Murphy (6,305,195), Symonds et al (6,039,245) and Walker et al (6,694,300).

Murphy shows a system for presenting marketing presentations. The system of Murphy, however, does not show that the advertising message is determined by accessing the commercial computer while the user is waiting. Rather, the information is

stored on the terminal drive during terminal down time. Murphy also does not show that the system chooses presentations based on user data.

Patterson shows choosing presentations based on customer data.

The Board of Patent Appeals and Interferences held that these references do not singly or in combination anticipate or make obvious the claimed method of the present invention.

Walker et al shows a system for providing marketing presentations at an ATM. However, Walker et al also do not show determining, receiving and showing the presentations concurrently via a marketing computer separate from the transaction computer.

In light of the Board decision and the elements fatally lacking in the best references, claims 1-55 are found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
